## FINE ART

OCTOBER  
2020

Olivia Hobson

## PARENT'S DAY EDITION!

We would like to take this opportunity to share with you

how the art department has addressed the safety of our students so that we can provide them with a creative outlet for their fine arts learning experience. The students are each working with their own materials to provide as much of a touch free experience as possible. They have each been provided with a bin of materials. These bins are easily transportable home with the students should the need arise. Where things need to be shared they are wiped down between uses. Our teachers are prepping the room prior to the class arrival to ensure that there is minimal need for the students to move around the classroom to get things that they might need. It took very little time to adapt to the new protocols and now the classes are fully focused on creating the artwork that you will find shown below. We thought it would be fun and informative to take this opportunity share images of our students at work in the art department...a window into our creative and safe studios. Please feel free to ask any questions

# 2020

you may have about how we are providing a safe environment for your art students when you speak with us on Parent's Day.
