WHAT'S INSIDE THIS ISSUE:

ARTS FESTIVAL STARTS THIS WEEK!

Friday, April 14th Through Friday, April 21st

ARTS FIST 2023

Solebury School celebrates the Arts with its week-long Arts Festival every year. The art show in Abbe and various performances bring the community together in a celebration of both the performing and the visual arts. Throughout the week, special art activities are scheduled for students and faculty. Students enjoy theatrical and musical performances by well known artists. Professional artists, musicians, and performers are invited to offer workshops in their crafts during the week. Several art students over the years have also run their own workshops in the various arts. We hope you will attend both the performance events as well as the workshops and enjoy the week long immersion in the arts here at Solebury School.

STC Residency Showcase 7:00pm PAC

ADVANCED PHOTOGRAPHY

In this project, the Advanced Digital students had to find images of objects and relate them compositionally with texture, light, shadow, color, or monotonal similarities.

Kelly's class visited Lambertville, New Hope and the canal for a wide range of subject matter to conceptually relate our images, The students produced incredible visual pairs and they learned to see form and structure and look at their subject matter objectively.
